

DOCUMENTATION

Document Guide.

How to make Stratos Edge documents. Two profiles. Pick by intent.

Two profiles.

Stratos Edge documents come in two flavors. Pick by intent — not by audience, not by sensitivity.

THE DEFAULT

Stratos Simple.

Clean, light, Stratos-identified. Most documents.

THE INTENTIONAL MOMENT

Stratos Playbook.

Full marketing treatment. Used sparingly.

How to choose

IF THE DOCUMENT IS...	USE
Delivering information or confirming an action	Simple
Making an argument, persuading, or selling	Playbook
An intro letter, summary, memo, or working note	Simple
A lead magnet, sales playbook, methodology overview	Playbook
Short (1-4 pages)	Simple
Long (6+ pages) and meant to be printed or shared as an artifact	Playbook
You're unsure	Simple

DEFAULT TO SIMPLE

Playbook is the exception, not the rule. If most of your documents look like Playbooks, your Playbooks stop reading as special. Save it for the moments that actually deserve it.

What's *not* a profile decision

Whether a document is internal, external, confidential, or public is a **footer wording** decision — not a styling decision. Both profiles handle internal-vs-external the same way: only the footer copy changes. See "Footer wording" within each profile.

Stratos Simple.

The default. Clean, light, Stratos-identified, professionally formatted. Open straight to the content — no hero cover.

Visual recipe

- Background: #FFFFFF (default) or #F2F0E9 (warm editorial)
- Header: small STRATOS | EDGE wordmark, top-left of the first page
- Body: Lora 16–18pt, line-height 1.55–1.7, color INK #04242D
- Section headings: Work Sans 400, INK, with the coral period
- Footer: single line of small Lora at MUTED — date, page number, contextual identifier
- Margins: 0.85in horizontal (generous, reads editorial)

Don't include

- Hero cover page
 - Accent bar (Playbook-only)
 - Stat strips, pull quotes, numbered insight blocks
 - Dark teal sections
 - Coral-gradient buttons
- If a CTA is needed, use a single line of coral-period text (e.g., "Reply to confirm." or "Book a call at stratosedge.ai/contact").

Example layout

STRATOS | EDGE

Your documents are on the way.

Jeff is sending over a short brief on how the Stratos Edge advisor partnership works, along with an introduction to who we are and how we work with clients. It should land in your inbox in the next minute.

If you don't see it, check your spam folder or email Jeff directly at jeff.hardman@stratosedge.ai.

STRATOS EDGE · 2026-06-18

Footer wording (the only variable)

AUDIENCE	FOOTER LINE
Internal-facing	Stratos Edge · Internal · {date}
Client / recipient	Stratos Edge · {date} OR Stratos Edge · stratosedge.ai
Public-facing	© 2026 Stratos Edge LLC · stratosedge.ai

Styling is identical across all three. The footer copy is the only thing that changes.

Stratos Playbook.

The intentional moment. Full marketing treatment. Borrows the FlightPlan deliverable design language — colorized, sectioned, editorial, dramatic.

USE SPARINGLY

Playbook is the equivalent of a Stratos hero band — high impact when used, exhausting if every document looks like this.

Visual recipe

- **Cover page** — full-bleed dark teal #04242D , coral eyebrow at top, large Lora 400 title white with -0.02em , subtitle in Lora at rgba(245,245,247,0.65) , wordmark white at bottom corner, accent bar under the title
- **Section dividers** — full-bleed dark teal bands between major sections (mirrors FlightPlan). 2–4 per doc, not on every section
- **Body sections** — alternate #FFFFFF , #F8F8F8 , occasionally #F2F0E9
- Section headings: Work Sans 400, INK, coral period
- Body: Lora 16–18pt
- Margins: 0.7in horizontal

Components available

Use 1–2 of these per doc — not all of them:

- Accent bar under cover title
- Eyebrow labels above section headings
- Stat strips
- Pull quotes
- Numbered insight blocks
- Emphasis lines
- One coral-gradient CTA at the end

For specs on each, see the Brand Guide.

Example cover

STRATOS | EDGE

AGENT PROGRAM

Build a recurring revenue stream.

A short brief on how the Stratos Edge advisor partnership works, who it's for, and the deal economics for the agents we work with.

Footer wording

Same options as Simple. The footer line on body pages is small Work Sans — Stratos Edge · stratosedge.ai · page N for public docs, or Stratos Edge · Internal · page N for internal-only playbooks. Don't add "Confidential" unless the document genuinely warrants it.

Choosing a profile.

Common documents and the profile that fits.

DOCUMENT	PROFILE
Email confirmation page	Simple
Intro letter to a prospect	Simple
Summary of a discovery conversation	Simple
Working memo to the team	Simple (internal)
Short explainer for a recipient	Simple
Brand guide / docs (like this file)	Simple
Agent program overview PDF	Playbook
Sales Playbook	Playbook
Lead magnet PDF	Playbook
LinkedIn Playbook	Playbook
FlightPlan deliverable	Its own thing — Playbook patterns at max intensity

WHEN IN DOUBT

Default to Simple. Playbook is the exception, not the rule. If most of your documents look like Playbooks, your Playbooks stop reading as special.

Page geometry.

Dimensions, margins, and section sizing for both profiles.

PDF (print) geometry

	STRATOS SIMPLE	STRATOS PLAYBOOK
Page size	8.5 × 11 in (US Letter)	8.5 × 11 in (US Letter)
Horizontal margin	0.85in	0.7in
Top padding (first page)	0.85in	0 (cover bleeds)
Footer position	Bottom, 1pt hairline rule above	Bottom, no rule on dark sections
Cover page	None — open to content	Full-bleed dark teal hero
Section background	White or Cream (one)	Rotates: White → Off-white → Dark teal

On-screen (HTML rendering)

ELEMENT	SPEC
Body-text section max-width	max-width: 760px
Hero / photo / grid max-width	max-width: 1280px
Horizontal padding (Tailwind)	px-6 md:px-12 lg:px-16 xl:px-24
Section padding — Simple	clamp(5rem, 10vh, 7rem)
Section padding — Playbook hero	clamp(6rem, 12vh, 8rem)
